

Diversity Matters

...Would you like to promote an inclusive, positive working environment?

...Is your workplace diversity friendly?

...Are you aware of the statutory requirements?

...Do your front line staff deal with customers/clients from different backgrounds?

Ireland is home to people from 200 nations and has the fourth highest level of inward migrants in the EU. We want to help you embrace the huge benefits diversity brings to **YOUR** workplace.

We can provide step-by-step diversity training to support the development of a tailored diversity strategy which meets YOUR organisation's needs.

We also offer tailored cultural competency training for front line staff.

This will include:

- Introduction to statutory requirements including relevant laws and policies, with a particular focus on the Public Sector Duty
- Effective approaches to integration
- Ways to foster inclusivity and promote positive work environments
- Ways to improve equality and respect for cultural differences in your service provision
- How to ensure anti-racism is knitted into all policies

Working for equality

About the Immigrant Council of Ireland

The Immigrant Council of Ireland is an independent human rights organisation. It advocates for the rights of immigrants and their families, and acts as a catalyst for public debate and policy change. It works with and for immigrants, promoting their rights through information, legal advice, advocacy, campaigning and research, as well as providing training. The Immigrant Council believes immigration is a permanent and positive reality in Ireland and continues to lobby for integrated, transparent, rights-based immigration and integration legislation and policies which reflect this reality.
